TERMS OF SALE

1. Costly back ordering means time lost in starting crops. Rather than keep you waiting for items that are delayed or are scarce, we will substitute with varieties equally good or better unless you say "No Substitute."
2. No complaints entertained after five days from receipt of merchandise.
3. All orders are accepted subject to cancellation in case of crop failure and other conditions beyond our control.
4. We supply 250 at the 1000 rate of each variety, except where specified to contrary.
5. This price list cancels our previous lists and quotations. No orders, please, for less than \$5.00.
6. All prices subject to change without notice.
7. Terms—Customers not having an established account with us, please send remittance with order. 50% in advance on all C.O.D. shipments.
8. All stock travels at risk of purchaser. This stock is carefully packed and we hold "good order" receipt from the Transportation Co. for same. There our responsibility ceases. If the stock reaches you in bad condition accept it "in bad order," notify agent and bring claim against the Delivering Co. for damage caused by their negligence, as no allowance for this cause can or will be made by us.
9. The Nurserymen's Exchange gives no warranty, express or implied, as to description, quality, productiveness, or any other matter of any seeds, bulbs or plants they send out; they will be in no way responsible for the crop.

Camellia Double: The flowers are of the Camellia type and very large. This is best for greenhouse culture.

Carnation or Double Frilled: (Fimbriata Plena) This type produces a large double, resembling a carnation in form. The petals are frilled and have serrated edges.

Crispa or Single Frilled: Produces large, profusely frilled and ruffled single flowers.

Hanging Basket or Lloydii (Pendula fl. pl.) This is the Pendula or Lloydii type, containing double flowers only. Often hundreds of blossoms to a bulb.

OTHER BEGONIA TYPES IN MIXED COLORS

The following are distinct types of begonias and come in mixed colors only.

Cristata or Crested Type: A single type, slightly frilled, a coxcomb-like tuft or crest is borne on each petal.

Marginata: A crispa type flower, white with pink edge, and salmon with copper edge.

Marmorata: A camellia flowered double bloom mottled in red and white.

Multiflora: Large numbers of small flowers.

Picotee Double: A camellia type blossom with the edges of each petal in a different shade of color. Available in mixture only.

Rose-Bud: A double type resembling rose buds.

DWARF FRUIT TREES

Dwarf trees are grown from the same stock as espaliered trees, and have most of their advantages. They require very little space—only one-fourth as much as an ordinary tree. Yet they yield an abundance of delicious fruit. When fully grown, the maximum height of dwarf trees is not over 10 feet, and by proper pruning they can be kept down to six feet. This makes it easy to prune and spray them, and the fruit, which is of true variety is within reach for easy picking. Dwarf fruit trees are available in the following varieties: Almonds, Apples, Apricots, Cherries, Nectarines, Peaches, Pears, and Plums.

Calanthe Striata Sieboldinii. This is one of the few rare hardy orchids available. Will grow out in the garden in shade and semi-shade or in the home or greenhouse. This is really something different to advertise and bring customers to your nurseries. Flowers are varied, but mostly yellow and brown and about 2½ inches across. Each one of our bulbs should flower within 4 months from planting and will produce about 10 flowers. This is a good commercial variety for orchid growers.

Glory of Riverside Improved—True rose-pink, a strong grower and without a doubt, the most valuable variety for all purposes.

New Giant—Color closely resembles Glory of Riverside, but it has heavier stems and larger flowers. It is a late bloomer thus assuring the grower of a longer season.

White Giant—An exceptionally strong grower and well adapted for combinations.

Lilac Beauty—A pure soft lilac which is absolutely fixed. Another fine color for make-up work.

Peach Blossom—Deep peach-blossom pink. Compact habit. Excellent keeper.

Mrs. Eriksson of Riverside—A glowing rose-red, a very strong grower with heavy flower stems and stiff foliage; large flowers in heavy clusters of medium height.

Pure White Improved—Flowers are smaller than White Giant but more abundant. Good for make-up work.

Lavender New Baby Improved—Lavender.

Red New Baby Improved—An outstanding glowing red.

FLORALART FLOWER BOWLS NON-TIP

A twist locks frog in place.

Floralart Flower Bowls are made with the patented Non-tip base. A Dazey holder locks in the bowl so that heavy-stemmed off center arrangements may be made without the danger of flowers tipping over. They are hand spun of heavy solid copper and smartly finished in Copper green, Copper blue, Copper brown, Copper black. The shining copper showing around the edge and base of the bowl gives them a beautiful colorful appearance. They are also available in natural Copper and Bronze. Floralart also has a lower priced spun metal Non-tip bowl finished in baked enamel in Green, Blue and Brown.

Floralite

A new form of garden lighting designed to bring out the night-time beauty of your flowers, bushes and shrubs. Simple to install—just plug into any electrical outlet on porches or thru basement windows. The amber light repels insects. Perfect for Rock Gardens, Lily Ponds, Garden Paths, Rose Arbors, Entryways, Barbecue Pits, Driveways, Evergreens, Dangerous Steps, etc. These lights retail at \$5.00. They sell easily.

\$3.50 each

A Floralite keeps accidents from happening as well as brightening approaches and adding beauty. Floralite discourages prowlers. Trespassers don't lurk around bushes that are Floralited. The soft, amber lights add new richness, new beauty and a greater depth of color to foliage and blooms.

Labels

Permatag—Aluminum Plant Markers—a unique and easy to handle marker designed for identification of all types of plants and nursery stock. You merely write the name into the metal and it becomes permanent—will never wear off. Rust and weather proof, will not darken with age or change color. Permatags are not expensive, costing very little more than wooden labels. You will find Permatags the most popular plant marker you have ever sold. BIRD VITA-BAND PLANT BANDS

VITA-BAND 40: Growers are reporting outstanding results in vigorous well-balanced growth. Exclusive nutrient treatment affords a liberal supply of balanced plant food. Transplanting shock eliminated, saving 1 to 3 weeks set-back. Sturdy fibre resin construction maintains best moisture conditions with watering frequency cut 50%. Save space and growing time. Quick set-up and rapid removal.

VITA-BAND 10: Designed for growing periods of 8 to 10 weeks. A low-cost nutrient treated band especially good for annuals and vegetables. Produces growing results similar to Vita-Band 40.

"HANDY-WORK" TILLER . . . the Single-Unit Power Implement for Complete Soil Conditioning

No more spading, no more discing, no more harrowing . . . just guide the "Handy-Worker" Tiller through your garden and let the tines do the work.

Loosens or prepares soil to any depth desired from 1 to 4½ inches, with almost no effort, completely aerating the earth and assuring healthy crops. Fertilizer and compost mixtures are worked INTO the soil where they do the most good instead of staying on the surface or being plowed under in a useless "lump".

Powered by sturdy, rugged 1½ horsepower motor, proven in service, its mechanical simplicity gives it exceptionally long life and maintenance-free performance with power to spare. The strong, tempered, steel forged tines are individually replacable, and unconditionally guaranteed against breakage for one year under normal usage (including rocky soil).

Entire unit is specially designed to be rugged, sturdy and light in weight (100 lbs.) for easy handling. Chassis is completely rust-proof and non-corroding.

Copperite Rot Proofing

Steelcote copperite is non-poisonous to higher forms of animal life. Used to treat cellulose material such as wood, canvas, burlap, etc. Renders them inedible to fungi and insects; preventing mildew, rot and warping; increases life of benches, posts, sills, stacks, frames, seedboxes, etc. Apply before painting. Will increase life of all wood. Easily applied with brush.

HEATING CABLE SETS

**Gives You Better Germination—Faster Propagation
Healthier Plants Ready in Time for the Early Markets**

F.O.B. San Francisco or East Coast

Cable—For outdoor frames or greenhouses where heating cable is buried in the soil but the surrounding air is not heated by other means, approximately 10 watts per square foot of surface area is required.

In greenhouses etc. where the air as well as the soil is heated, approximately 5 watts per square foot has been found adequate. Heating cable is rated 6-2/3 Watts per lineal foot. It **must** be used in multiples of 60 ft.

60 ft. cables	400 Watts	110 volts
120 ft. cables	800 Watts	220 volts
240 ft. cables	1600 Watts	440 volts

Therefore a bed with soil heating only, with area of 160 square ft. should be heated as follows:

160 sq. ft. times 10 watts/sq. ft. = 1600 watts	
For 110 volts, use 4- 60 ft. lengths in parallel.....	1600 watts
For 220 volts, use 2-120 ft. lengths in parallel.....	1600 watts
For 440 volts, use 1-240 length.....	1600 watts
100 volt Heating Cable— 60 feet.....	\$11.95
220 volt Heating Cable—120 feet.....	23.15
Bulk cable—reels of 2,040 only.....	Per foot .15

Thermostats

For small jobs using only one or two of the 110 volt cables, the light duty thermostat is most economical. Do not use on voltage greater than 110 or more than two 110 cable sets.

For larger jobs, the heavy duty thermostat with bulb set in soil and with box containing electrical mechanism remote; the connecting tube is 18" long. This thermostat can be used for maximum of six 110 volt cable sets or six 220 volt cable sets.

Cat. No. 366X54—Light duty Thermostat.....\$ 7.50

Cat. No. 4980281G18—Heavy Duty Thermostat.. 13.65

Heavy duty Thermostat Assembly. Thermostat wired to a duplex outlet box and cord set. Cat. No. 4984571G2.....\$17.45

Complete book of instructions is packed with each cable set.

SOIL SHREDDERS "ROYER"

Ideal to pulverize soil, peat, manure, compost, leaf mold, etc. Machine shreds, mixes, aerates, removes trash and discharges direct to pile, wheelbarrow, truck or green house bench.

Use the cable in hotbeds, sold frames or greenhouse benches of any size or shape

Bring in your crops earlier with these Cable Sets than your competitor who does not utilize them.

Will save up to 85% labor, and the velvety, uniform texture of soil and compost will produce healthier and better quality plants. Write for descriptive pamphlet.
